

Declaration of WEEE Conformity

Supplier registration number: WEE/JK2212VZ

The European Community WEEE directive deals with the disposal of Waste Electrical and Electronic Equipment at the end of its useful life. The aims of the directive are to minimize the amount of material entering this waste stream and to provide funding for treatment facilities in order to maximize recovery and recycling.

Signal Group's obligation as a supplier to industry is to ensure the correct disposal of Electrical and Electronic Equipment (EEE) we produce when it reaches the end of its useful life and becomes waste.

Our customers should return to us any product manufactured by Signal Group after 13th August 2005 for correct disposal when it becomes waste*.

As required, we operate a like-for-like take-back scheme for products bought before 13th August 2005 when being replaced by a similar product of ours.

To arrange for the return of Signal Group manufactured WEEE please contact the sales department at the Signal Group address below.

* We are not obliged to pay for costs involved in returning B2B WEEE
